

Arael Scott, LMSW is a graduate of the University of Buffalo and has a Master's Degree in Social Work. Arael is passionate about working with individuals of all ages to improve their overall functioning and well-being. She has experience using a variety of evidence-based practices, including cognitive-behavioral therapy and motivational interviewing. Arael has experience working with individuals from many different backgrounds using a trauma-informed and person-centered approach, and believes that everyone has the ability to change their life for the better.

Endeavor Health Services is a private, not-for-profit licensed behavioral health organization that delivers a comprehensive range of outpatient treatment services, as well as community-based services. We are Certified Community Behavioral Health Clinic (CCBHC) in New York State and our mission is to collaborate with clients, families, and communities to promote wellness and recovery, through a variety of mental health and substance use treatment, education, and support services.

Endeavor was established in 1972 to deliver mental health and substance use treatment, recovery, and support services to the geographic catchment area of East Buffalo to Alden. We have expanded past our original catchment area to include bordering neighborhoods and counties to provide needed services to all. We are a safety net provider and we do not deny services based on a person's inability to pay.
